Please tick if any other specialists are required

- CBCT Scan
- Intravenous / Inhalation Sedation
- Specialist Periodontist
- Specialist Prosthodontist
- Specialist Orthodontist
- Joint Multi-disciplinary Assessment
- Dental Implants (Joint Specialist Consultation with Periodontist and Prosthodontist)

The clinical context for requesting a dental CBCT, what information do you want the dental CBCT to provide and define the anatomical area that the scan should cover.

Thank You for Your Referral. Your Patient will only ever be seen for the specialist treatment/s that you tick. We are delighted to work closely with referring practitioners, offering our help and expertise for all aspects of patient care from the treatment planning process through to the execution of treatment. We are happy to discuss and treatment plan cases or undertake the complete treatment plan. Treatments will only be undertaken by specialists. We will contact the patient to arrange an appointment and keep you informed of their progress at every stage. We provide only the highest level of care for all our patients and regularly hold specialist clinical governance meetings. Our commitment to excellence will ensure that your patient will receive dental care of the most superior calibre.
